WORK EXPERIENCE

Full stack developer
Xtech
01/2022 - 06/2025
xTECH is a web agency specialized in web developing web and mobile apps using javascript

Achievements/Tasks

- Currently leading the **mobile UI development** for **Ostro** , a cross-platform app built with **React Native** , focusing on delivering a smooth, responsive user experience and adhering to modern design systems.
- Worked on **Enquee** , a platform designed to **create and manage surveys within Slack** , handling both frontend development and backend integration to support real-time interactions and results tracking.
- Contributed to the **Sorpetaler website**, collaborating closely with designers to build performant and accessible pages using **React**, **Gatsby**, and **Astro**.
- Created and maintained **reusable UI components** shared across projects to ensure consistency and reduce development time.
- Built and simulated robust **backend APIs and logic** using **Node.js** and **AWS services** such as **Lambda**, **Amplify**, **DynamoDB**, and **Cognito**.
- Participated in Agile Scrum processes: **daily standups**, **sprint planning**, **retrospectives**, and **code reviews**, ensuring high collaboration and continuous delivery.
- Worked directly with stakeholders to gather requirements, provide technical guidance, and shape scalable solutions across frontend and backend.

End of studies project
Tekonsult
03/2021 - 07/2021
Achievements/Tasks

- Built a school platform to help manage courses and track student attendance.

End of studies project
Asteelflash
02/2018 - 06/2018
Achievements/Tasks
